

WIAB 05-11

DATE: September 21, 2011
TO: Micron NEG *Service* Providers only
FROM: Susan Simmons, Operations Manager, Workforce Development Division
SUBJECT: Micron NEG Extension

Idaho Department of Labor received a National Emergency Grant for Micron Technology workers effective October 1, 2009 through September 30, 2011. The Department earlier this year requested a no-cost extension to accommodate the 250 participants who are not scheduled to complete their specific programs until 2012. However, due to budget issues occurring in Washington D.C., the approval of the request has been delayed.

Department staff has received unofficial word from Federal regional staff that the Micron NEG request is in process working its way toward approval. Based on this information, One Stop staff should continue to maintain current Micron participants under Title J until otherwise notified

If you have any questions, please contact Ben Phillips x 3398 or Rico Barrera x3316.
